Notes of Bob Palmer, “Own the Zone” Trap & Field Magazine, October 2017. Palmer is CEO of SportsExcel, Inc. and author of book, Mind vs. Target.

“Trap has a score-based happiness factor and most people in the winter will be terribly unhappy with their scores. Set different expectations for off-season shooting . . . have more fun on even the bad-weather days by putting more emphasis on enjoying the social side than on the competitive side.”

BREAK THE CURSE OF WINTER SHOOTING AND HAVE FUN DOING IT!
